Ok, sure! Here is a link to the adobe connect room we can use:

(b) (6)

I know very little about the Budd Inlet TMDL, so starting from the beginning would be great. Thanks!

Hi Miranda,

It might be good to have the ability to share things while we talk. How much do you know about the Budd Inlet TMDL? Just so I know where to start off. I am assuming you've not been introduced to it, but let me know if that assumption is wrong.

I will get back to you about meeting with Tetra Tech – need to figure out who needs to be involved on this end.

Leanne

Ok, great! Do you think you'll want to share presentations, maps, etc. during the call? I can set up an adobe connect room to do that if you want.

Also, we met today with the contractor (Amy King with Tetra Tech) to discuss the Deschutes TMDLs, and thought it would be good to go ahead and set up a time to talk about Deschutes/Budd Inlet. Maybe we could target the week of 8/13 for that call? If that works for you, I can give Amy yours and Rich's emails so she can send out a doodle poll to schedule something. Is there anyone else that should be on that call?

I think most of the conversation will focus on data availability, and getting an understanding of what you can share with us in terms of data and the modeling files.

Thanks,

Miranda Hodgkiss

Yes, that works for me. I'll give you a call.

We can do a brief overview of the project and then maybe come up with a plan for reviewing things in finer detail.

Ok sure. Let's do the afternoon of the 7th. Would 2:30 work?

Hi Miranda,

I am out of the office the 8th – 13th. I could do the afternoon of the 7th or am pretty open the 14-16th.

I want to be sure we give ample time to just discussing the Budd Inlet TMDL – and think it would be best to set up additional time to discuss the Deschutes. I'll probably need to loop Rich into Deschutes related discussions, too.

Leanne

Hi Leanne,

Thanks for checking in. I'm out the 6th and the morning of the 7th. Would the 8th work for you? I'm free anytime after 10:30 that day. The 10th is also open for me.

This is good timing – we have a meeting tomorrow with the contractor who will be helping us on the Deschutes TMDL, and I wanted to touch base with you once we had a clearer direction after that meeting. After you and I have an initial call, maybe we can have the contractor set up a call with all three of us so we can identify areas of overlap? Or would it be helpful to invite them to our first call?

Thanks,

Subject: Checking in on Budd Inlet

Hi Miranda,

As we discussed, I'd like to set up meetings for us to discuss the Budd Inlet TMDL.

I am looking into early - August – perhaps the 6th or 7th?

We could start with a phone call to come up with a plan for bringing you up to speed.

Let me know what works for you.

Best,

Leanne
